Rowena Bragg (Principal) notes that the strong academic results are but one indicator of the whole-person quality education approach that is being developed at Katoke. The school seeks to develop young people who can problem solve, think, reason, work through issues and aspire to see the possibilities and opportunities to serve their communities and nation. The students' personal development in the context of a Christian world-view is encouraged and fostered throughout their time at KLSS.

We are also pleased to report that in the Form 2 national exams, our student, Idda Raulian, came first passing with a perfect GPA of 5.0. This puts Idda among the top students of the nation.

We thank the many sponsors of students, volunteers and supporters of KLSS whose generosity has also contributed to these remarkable results.
